Made for U

Download Statistical Software

SAS JMP Pro is a software focused on exploratory analytics, whereby users investigate and explore data, rather than testing a hypothesis.

SAS JMP Pro is used in applications such as Six Sigma, quality control and engineering, design of experiments and scientific research. JMP, is a computer program for statistics developed by the JMP business unit of SAS Institute. The software consists of five products: JMP, JMP Pro, JMP Clinical, JMP Genomics, and the JMP Graph Builder App for the iPad. A scripting language is also available.

At a glance:

SAS JMP Pro is a product of the SAS institute that is used for quality control, simple and complex statistical analysis, and data visualization.

Who can use it?:

SAS JMP Pro is available to all UM faculty, staff, and students at no cost. This software can be downloaded to departmental and/or personal devices.

Who to contact:

If you have any questions about SAS JMP Pro, or experience any download issues, please contact the Software team at: (305) 284-1138 or software@miami.edu.

Benefits of SAS JMP Pro:

- SAS JMP Pro lets you use the data you have now to better anticipate the future and plan well for tomorrow.
- Built with scientists and engineers in mind, SAS JMP Pro statistical analysis software provides all the superior visual data access and manipulation, interactivity, comprehensive analyses and extensibility that are the hallmarks of JMP, plus a multitude of additional techniques.
- Utilize advanced analytics with SAS JMP Pro, like generalized regression, mixed-effects models, advanced consumer research analysis, reliability block diagrams, and more.
- SAS JMP Pro also features predictive modeling with cross-validation, model comparison and averaging features, exact tests and one-click bootstrapping.
- Learn more by visiting the **SAS JMP Learning Center**.

Training:

- The following training resources can be found in the **SAS JMP Learning Center** under the "**Training**" section:

  - **View Training Videos**
  - **Training via the SAS JMP Pro Website**
  - **Full Documentation for SAS JMP Pro**
